THE COMPANY

XWORLD LTD
FROM ZERO TO THE TOP TOGETHER WE CAN DO IT

XWorldLTD

UK-based AI technology company developing intelligent business infrastructure through its flagship platform, NORA.

Our mission: help organizations automate operations, centralize knowledge, orchestrate AI agents, and transform decision-making through a unified AI-native platform.

THE COMPANY

Businesses operate across disconnected systems, fragmented data, manual workflows, and AI tools that lack memory, context, and business understanding.

- Knowledge scattered across systems
- Repetitive manual operations
- Limited AI adoption and ROI
- No business context in AI tools
- Inefficient decision-making

THE SOLUTION

nora

// Multi-Agent Orchestration
// Persistent Memory
// Business Intelligence
// Workflow Automation
// Knowledge Management
// Analytics & Reporting

Your AI Operating System for Business Growth

THE MARKET

The global AI software and automation market is growing rapidly as organizations seek scalable AI infrastructure beyond chatbots.

// Artificial Intelligence
// Enterprise Software

Min Investment	**USD 10,000**

$500K Target Raise

VISION

Our vision is to create the intelligence layer that powers modern organizations.

Just as cloud infrastructure transformed how software is built, NORA aims to transform how businesses operate by connecting knowledge, workflows, AI agents, and decision-making into a single intelligent operating environment capable of understanding, coordinating, and executing work at scale.
